

Handy Guide to

Common Housing Registers

Some Local Authorities have Common Housing Registers. They are essentially a centralised Waiting List for that area.

This type of waiting list provides easy access to applicants of social housing, with less form filling and hassle.

You will register once and your name will appear on the waiting lists of all the housing associations who are in partnership with that particular Local Authority (Council).

St Vincent's has joined with the local authorities of Manchester and Bolton to provide this service.

If you wish to apply for a property in either of these areas, click on the map for either Bolton or Manchester and you will be redirected to the common housing register web site. Alternatively give us a ring for further advice on **01204 904550**.
